(C:\Program Files\Autodesk\AutoCAD 2012 R12\acad.exe) but do not work. How to turn it back to original again? A: Those registry tweaks affect Autodesk products. Specifically, they affect AutoCAD. To resolve: Select Start, type regedit in the Start Search dialog and press Enter. In the Registry Editor window, expand the key HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Run. Note that the path might be slightly different on your system, so the path may not be exactly HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Run. Find the value AutodeskAutoCAD2012T. If you see it, delete it. Close the Registry Editor window. Q: How to correctly load a type file containing a static constructor? How do you correctly load a type file containing a static constructor? I have a type file with a static constructor and it does not load into the designer properly. I am using VS2012, C# and.NET 4.5.
